

Annual Subject Index

2-DE	176	genetic diversity	17
3-glucanase	82	genetic transformation	244
<i>Agrobacterium tumefaciens</i>	237	genotypes	211
<i>Agrobacterium tumefaciens</i>	94	germplasm	159
<i>Agrobacterium</i> -mediated transformation	73	ginger EST-SSR primers	323
aldehyde dehydrogenases	254	growth regulators	53
Alkylhydroperoxidase C	273	Growth, reproduction	118
allele frequency	211	helicase 47	73
alpha - lactalbumin	211	<i>Helicoverpa armigera</i>	244
antibacterial activity	38	heterozygote	118
APETALA3	263	hyaluronidase gene expression	282
<i>Arabidopsis thaliana</i>	102	hybrid, heterosis	102
<i>BaAhpC</i> gene cloning	273	Identification	113
bacterial leaf blight	169	Indian crossbred cows	206
<i>badh2</i>	292	Indian wild rice	299
bioactive compounds	38	indica rice	299
<i>Bipolaris maydis</i> infection	82	Insect resistance	94
Bluetongue virus	219	ISSR markers	311
Bovine rotavirus	45		
Brucella abortus	273	kappa-casein	211
Calcite	28	Katarni rice	292
<i>Capsicum annum</i>	53	Labrador dog semen	131
Cattle	211	Large cardamom	323
cellulase activity	192	Leptin	118
cellulolytic microorganisms	192	LH receptor	206
Chilled semen	131	lipid peroxidation	131
Cloning	282		
Coat protein	113	Maize gene expression	82
cocktail & indigenous ELISA	49	mapping population	299
<i>Cordyceps sinensis</i>	38	marine bacteria	28
<i>Cry1Aabc</i> gene	244	Mastitis milk	125
		maydis leaf blight	82
dalapon, transgenics	237	microorganisms	125
DEAD-box helicases	73	microspore embryogenesis	53
dehalogenase E gene	237	Miracle wheat	263
developmental stages	102	Molecular diversity	159
disease resistance	9	molecular serotyping	219
DNA isolation	323	multiplex PCR	125
dual-gene PCR	45	multiplex reverse transcription PCR	219
dual-gene PCR	45	<i>Mycobacterium avium</i> subspecies <i>paratuberculosis</i>	49
		MYMIV	113
Earthworm	192		
<i>Elettaria cardamomum</i>	311	non-structural gene diagnosis	45
ELISA	244		
embryo regeneration	53	<i>Oryza nivara</i>	299
expansin, succinyl CoA ligase	254	<i>Oryza sativa</i>	299
		Ovarian granulosa cell	206
fibrinolytic activity	38		
flowering genes	263	phenotypic traits	102
French bean	113	phenylalanine ammonia lyase	82
		pheophytinase	82
Gene expression profiles	254	PISTILLATA	263
gene introgression	299	postharvest	254
genetic base	311		

production traits	118	STMS marker	159
Proline resistance drought	73	sugarcane	159
promoter	9		
protease inhibitor	94	Tea	176
Protein kinases	9	tea cultivars	176
qRT-PCR	254	Transgenic pigeonpea	244
		transgenic tobacco	94
receptor like kinases	9	tris-base extenders	131
recombinant	282	<i>Triticum durum</i>	17
refrigeration	254	<i>Triticum aestivum</i>	17
rice plant	169	<i>Triticum Dicoccum</i>	17
<i>Saccharum spontaneum</i>	159	type 1 diabetes	49
Seed storage proteins	17		
similarity coefficient	292	urease	28
single nucleotide polymorphism	118		
SNP	102	varietal diversity	311
softening	254	<i>Vigna mungo</i>	94
solvent fractions	38	<i>Virgibacillus</i>	28
sperm attributes	131		
SSR markers	292	western blot	282
standardization protocol	323		
steroidogenic enzyme	206	<i>Xanthomonas oryzae</i> pv. <i>oryzae</i>	169
