CONTENTS

Effect of quick lime addition for improving compressive strength of fly ash based (cement free) geopolymer concrete Manish Mudgal, Akash Nageshwar, Ramesh Kumar Chouhan, Vedansh Mudgal, Janardan Singh Chauhan & Avinish Kumar Srivastava	417
Seismic acceleration amplification factor under fixed and pin supported RC frame building Rinki Verma, Ravinder Kumar Agrahari, Krishna Kant Pathak & Virendra Pathak	425
Enhanced mechanical and durability performance of dry mix concrete made with silica-coated aggregates Humaira Athar, Raghunandan Kadaba, Lok Pratap Singh & Pradeep Rawat	438
Fully coupled analysis of a floating offshore wind turbine under wind and wave loading Keerthana Mohana & Pabbisetty Harikrishna	447
Design, development and field evaluation of a tractor-operated ginger planter Himanshu Shekhar Pandey, Chetankumar Prakash Sawant & Manish Kumar	462
Development of portable digital colour meter for lignocellulosic fibers Nageshkumar T, Prateek Shrivastava, D B Shakyawar, Manisha Jagadale & Avijit Das	480
Effect of radial jets in exhaust system of spark ignition engine – Exergy analysis Nilaj Deshmukh, Samir Nimkar, Kaustubh Jambhale, Rohit Kadam, Athul Krishna T.B. & Shantanu Soshte	486
Electrical discharge machining of EN-40B high carbon alloy steel: Investigation of recast layer and multi-performance optimization Pratap Chandra Padhi, Nalamalapu Ravindra Reddy, Trupti Ranjan Mahapatra, Punyapriya Mishra & Somya Ranjan Parimanik	493
Analysis of motor-battery combinations in EV System Pravallika Gandhaveeti & P. Sujatha	502
Hydrogel bonding meets pozzolanic reaction: A dual approach to soil stabilization Aditya Kumar Anshu & YamemTamut	509
