

INDIAN JOURNAL OF NATURAL PRODUCTS AND RESOURCES

(Formerly *NATURAL PRODUCT RADIANCE*)

Instructions to Authors

The, Indian Journal of Natural Products and Resources (IJNPR), a quarterly journal, is dedicated to the exploration of topics that confront both educators, frontline workers in the fields, entrepreneurs and ultimate users of the value added products and their resources pertaining to both plants and animals. It publishes original research papers, reviews and short communications. The scope of the journal is multidisciplinary especially of applied nature. Papers on plant cultivation, fishery, apiary, poultry, dairy, disease and pest control measures, postharvest technology/practices, value added products and utilization of plants and animals in broader sense (including ethnobotany and pharmacology).

The manuscripts of papers submitted to IJNPR should not be communicated or published elsewhere. The review article will be processed only when author(s) has included his own research work also and has been an authority in that field. It is mandatory on the part of the corresponding author to furnish the following certificate at the time of submission of the manuscript:

This is to certify that the reported work in the paper entitled " " submitted for publication is an original one and has not been submitted for publication elsewhere. I/we further certify that proper citations to the previously reported work have been given and no data/tables/figures have been quoted verbatim from other publications without giving due acknowledgement and without the permission of the author(s). The consent of all the authors of this paper has been obtained for submitting the paper to the Indian Journal of Natural Products and Resources..

Signatures and names of all the authors

The copyright of the paper will be transferred from the author to publisher.

Electronic submission

Online submission of manuscripts is encouraged, along with the text, tables, and figures in Microsoft Word file (preferably in Times New Roman font, double line space). Following Link is to be followed for submission of paper: <http://or.nispr.res.in/index.php/IJNPR>.

CSIR-NIScPR does not levy Article Processing Charges (APCs) or Article Submission Charges for any of its journals.

Review Process

All manuscripts are initially screened by editor for its suitability to process further. The manuscript is then sent (electronically) to the Editorial Board or qualified outside reviewers. Decisions will be made as rapidly as possible, and

the journal strives to return reviewers' comments to authors.

The manuscript, after referees' recommendations and suggestions to revise, will be sent back to the author(s) along with referees' comments. For re-submission, one copy of the revised version of the manuscript, and a copy on compact disc (CD) or by E-mail using word processing software such as MS Word (version 6 and onwards), should be submitted to the editor.

Preparation of the Manuscript

Manuscripts should be typed in double space (11 pt, Times New Roman font preferred) on one side of the bond paper of 22×28 cm. All pages should be numbered consecutively. Use SI units, and give equivalent SI units in parenthesis when the use of other units is unavoidable. Symbols should conform to standard guidelines.

Title—It should be short & informative (15 pt), to be typed in only first letter of the first word capital; also, after colon or hyphen, first letter of the first word capital. Latin names are to be given in italics.

Short Running Title—Not in excess of 50 characters, to be all in capitals.

Keywords—Five or six keywords (in normal; 9 pt) indicating the contents of the manuscript.

Authors—Names of authors to be typed in first letters capital (10 pt).

Addresses of Authors—Addresses of the institution (s) where the work was carried out including telephone (office only), fax number and e-mail address (9 pt). Author for correspondence should be indicated with an asterisk (*)

Main Headings—Each manuscript should be divided into the following main headings (typed in bold, first letters capital, on the left hand side of the page; 11 pt): **Abstract, Introduction, Materials and Methods, Results, Discussion, Acknowledgement, References.**

Sub-Headings—Typed in flush left, bold, first letters capital (9 pt).

Sub-Sub Headings—Bold-Italics, first letters capital (9 pt).

Abstract— It should be brief not exceeding 200 words, typed in normal (9 pt).

Introduction—A brief and precise literature review with objectives of the research undertaken and essential background be given.

Materials and Methods—Materials and Methods should include the source and nature of material, experimental design and the techniques employed. New methods should be described in sufficient details, and others can be referred to published work.

Results—Results should contain data, which are essential for drawing main conclusion from the study. Wherever needed, the data should be statistically analyzed. Same data should not be presented in both table and figure form.

Discussion—The discussion should deal the interpretation of the results. Wherever possible, results and discussion can be combined.

Tables—Tables should be typed in double space on separate sheets, numbered consecutively, and only contain horizontal cells. The table headings should be typed with the first letter capital.

Figures—The line drawings, illustrations, photographs, etc. will be accepted in JPEG/TIFF files with hard copy. For each figure, a glossy print or original drawing may be submitted. Photomicrographs should have a scale bar. Line drawings should be roughly twice the final printed single column size of 7.5 cm width. Text figures should be numbered in Arabic numerals. Lettering, numbering, symbols and lines in the graphs/illustrations should be sufficiently clear and large to withstand reduction up to 50%. Captions and legends to illustrations should be typed on a separate sheet of paper. Line drawings and photographs should contain figure number, author's name and the orientation (top) on the reverse with a soft lead pencil. Photostat copies and dot matrix prints will not be accepted.

References—References should be cited in the text by the consecutive **numbers** of their occurrence; the numbers are to be shown as superscript at the end of the statement related to that particular reference, e.g. It also inhibits the activity of endogenous DNA polymerase of HBV⁷.

Following the same sequence of the text, the list of references be appended under the **References** heading. Each reference should provide names and initials of all the authors, giving coma in between the authors and 'and' before the last author. In case, the authors are more than five, then use *et al* after the 5th author. It should be followed by title of the paper, abbreviated title of journal (in italics), volume number, year of publication (within circular bracket), and the starting and closing page numbers. Abbreviated titles should conform to the international guidelines, e.g. The Chemical Abstracts Service Source Index (CASSI) or BIOSIS

The style of references should be:
