

Calculate the Age

Sarla has a son – Shiv and a daughter – Mira. When asked about the age of the kids, Sarla replied, “If square of the Shiv’s age is added to the age of Mira, the sum will be 62, however if you add the square of Mira’s age to the age of Shiv, the sum will be 176.” Can you calculate the ages of both Shiv and Mira?

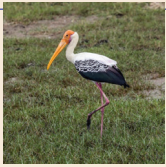

Match the Following

Name of Nuclear Power Plant in India	State
