

Instructions to Authors

The *Journal of Scientific Temper* is a peer-reviewed journal devoted to publishing papers on all aspects of Scientific Temper, Public Understanding of Science and Science Communication. The journal will consider for publication contributed papers, invited papers, technical notes, survey reports, review articles and book reviews (by invitation of the editor).

Preparation and Submission of Manuscript

Authors are advised to see the recent issue of the journal (available at <http://nopr.niscpr.res.in>) to get familiar with the format of the paper. Manuscript should be provided in concise form. Pages should be numbered consecutively, and the matter should be arranged in the following order: **title, name(s) of the author(s), department(s) and institution(s), abstract, keywords, introduction, premise, discussion, conclusion, acknowledgement, and references.**

The manuscript in MS word format consisting of 5000-7000 words (single column, continuous) should be submitted through Online manuscript submission system op.niscpr.res/index.php/jst. The illustrations in suitable formats along with captions should be sent in tiff/jpeg formats separately.

The **abstract, usually not exceeding 250 words** should indicate the scope and method used in the paper, highlighting the principal findings and conclusions.

Reference(s) to the information source(s), should be placed at the end of the paper in alphabetical order.

In citing reference(s) to article(s), names and initials of the author(s) should be followed, in order, by year of publication within brackets, by the title of the paper, full title of the periodical (*italics*), the volume and issue number within circular brackets, year within circular brackets and inclusive pages, e.g., Gutteling J M (2002) Biotechnology in the Netherlands: controversy or consensus?, *Public Understanding of Science* 11: 131-142.

Reference(s) to book(s) should include names and initials of the author(s) should be followed by, in order, year of publication within circular brackets, the title of the book (*italics*), name of the publisher

and place of publication, edition, and inclusive page(s), e. g., Durant J (1993) What is scientific Literacy? in *Science and Culture in Europe*, edited by Durant J and Gregory J, Science Museum, London.

Reference(s) to unpublished paper(s) should be given as Bauer M and Shukla R (2007) Background paper for International Indicators of Science and the Public Workshop, Royal Society, London, 5-6 November, 2007.

Reference(s) to report(s) should be given as: Raza G and Singh S (2007) Science and Public, A Report based on the Survey Study Conducted during Ardh-Kumbh-2007, *A NISTADS Report*.

Reference(s) to information downloaded from a website should give full address of the website without underline, followed by date of download, if data are dynamic, e.g., *Title* (assessed on 24 September 2010) at www.niscair.res.in

Use of *id*, *ibid*, *supra note* etc., should be avoided; instead appropriate reference should be given.

Essentials of Manuscript

The manuscript should have a covering letter on official letterhead under the signature of the corresponding author.

It is mandatory on the part of the author(s) to furnish the following certificate (as scanned or hard copy) on official letterhead at the time of submission of the manuscript for publication:

[This to certify that the reported work in the paper entitled ‘.....’ submitted for publication in the journal ‘.....’ is an original one and has not been submitted for publication elsewhere. I/we further certify that proper citations to the previously reported work have been given and no data/tables/figures have been quoted verbatim from other publications without giving due acknowledgement and without the permission of the author(s). The consent of all the authors of this paper has been obtained for submitting the paper to the journal ‘.....’]

[Signature(s) and name(s) of all the author(s)]
